### **POSITION DESCRIPTION:**

Reporting directly to the Chief Nurse Executive and with a matrix report to the Clinical Manager, Acute Care and ED, the Acute Care Nurse Practitioner (NP) is a registered nurse in the extended class who holds a Master's degree in Nursing with expertise in one or more clinical nursing specialties. In keeping with Haliburton Highlands Health Services (HHHS) mission, vision, and values, the NP is responsible for working together with the interprofessional team toward development, implementation, and evaluation of patient plans of care, and uses advanced knowledge, skill, and judgment in providing care and solutions for complex health-care issues for a specified patient population. In this role the NP works in collaboration with the MRP to provide comprehensive care to our acute medical inpatient population. The NP participates in the on call rotation with hospitalist back up support.

The NP utilizes a holistic approach that is grounded in evidence with an emphasis on health promotion and illness/injury prevention. The role includes direct comprehensive patient care including advanced assessment, diagnosing, prescribing, ordering, and interpreting lab, radiology, and ultrasound tests as per defined regulations and legislated scope of practice.

In addition to direct clinical care, the NP plays a leading role in the development and implementation of applicable clinical guidelines and protocols, promotes the use of research and evidence-based practice, provides expert support and consultation, and facilitates system change. The NP is committed to lifelong learning and is committed to promoting, leading, and contributing to the learning of others.
